North Dakota	48	High	Bottom 10	↗
Hawaii	49	Low	30 to 40	—
Nebraska	50	High	Bottom 10	↘

\* Consistency is based on standard deviation for each state's variance from average variance in rankings from all states.

\*\* Past Performance is a median ranking based on nine rankings from 2008 to 2017.

\*\*\* This metric looks at whether a state is expected to have a higher or lower ranking next year based on the five years of state ranking data from 2012 through 2017, using the FORECAST function in Microsoft Excel.
