## 10 BUILDING BLOCKS OF A BICYCLE FRIENDLY COMMUNITY

Every community excels in different areas, but the important thing is continued progress on these key fronts.

### FEEDBACK

Develop an on-street bikeway network including bike lanes and buffered bikes lanes. Work with MassDOT to make these safety improvements on Routes 3 and 3a and other major streets.

Work with bicycling community and businesses to inform and create an excellent bicycle plan within the larger comprehensive plan.

Ensure that all new developments are built to make biking safe and convenient, offering a mix of uses and amenities like bike parking and easy transit access.
