Successes & Suggestions

The Bicycle Friendly State report card is based on over 100 data points for each state and input from state agencies and advocates. Based on the information we obtained for New Mexico, the League of American Bicyclists believes the following actions will improve the safety, comfort, and accessibility of bicycling in New Mexico.

The New Mexico legislature and DOT should consider incentive programs to promote local land use and transportation coordination, including bicycle and pedestrian network connectivity.

Congratulations on completing and adopting the New Mexico Prioritized Bicycle Network Plan and the Rio Grande Trail Master Plan. Continue efforts by the New Mexico Department of Transportation to train agency staff and localities on the strategies, facilities, and other approaches in those plans.

The New Mexico DOT has banned speed and red light cameras on state and federal roads. These automated enforcement methods can help reduce speeding and improve safety. The DOT should reconsider its current policies.

The New Mexico DOT should have at least a full-time statewide engineer who works to promote bicycle safety in state DOT projects. By increasing staff dedicated to bicycle and pedestrian safety the DOT can ensure DOT projects are safer for all road users and provide assistance to communities in New Mexico.

Adopt a safe passing law with a minimum distance of 3 feet to address bicyclist safety. The League has a white paper that provides examples of how other states have adopted and implemented this type of law: https://bikeleague.org/sites/default/files/BFS_WP-Safe_Passing_law-07_2018.pdf.

New Mexico has set a safety target [https://safety.fhwa.dot.gov/hsip/spm/state_safety_targets/] that anticipates an increase in the number of non-motorized fatalities and serious injuries. While this target may reflect current trends, it is also a statement of goals and New Mexico should set goals that reflect a commitment to improving road safety and reaching zero deaths and serious injuries.

Adopt a statewide Complete Streets policy. The National Complete Streets Coalition has a model state policy and a variety of other resources to ensure adoption and implementation.

Adopt a vulnerable road user law that increases penalties for a motorist that injures or kills a bicyclist or pedestrian.

Create a state website with resources on bicycle commuting, touring, state bike routes, planning documents, and other relevant information.

Many states understand the connection between transportation and health. Consider how the state DOT can work with public health stakeholders to enable physical activity and mitigate the negative effects of emissions, limited access to resources, and traffic violence.
### Category Breakdown: NEW MEXICO

#### Infrastructure & Funding
**Ranked 29 of 50 States**

- **Design and Existence of Infrastructure**: Does the state have a complete streets policy and processes to support its implementation?  
  - **Score**: B-

- **State Transportation Funding**: Does the state allocate funding to bicycling or limit state funding for bicycling?  
  - **Score**: D

- **Use of Federal Transportation Funding**: Does the state take advantage of available federal funding for bicycling and walking?  
  - **Score**: D

- **Planned and Recently Built Bicycle & Pedestrian Facilities**: How many lane miles of bicycle and pedestrian facilities has the state reportedly planned to build and build?  
  - **Score**: F

---

#### Evaluation & Planning
**Ranked 16 of 50 States**

- **State DOT Bicycle & Pedestrian Plans**: Does the state have a bicycle and/or pedestrian plan and does that plan follow best practices?  
  - **Score**: B+

- **Bicycle and Pedestrian Safety**: Has the state made bicyclist and pedestrian safety an emphasis and what does data say about safety?  
  - **Score**: C

- **Understanding People Who Bike and Walk**: Does the state have programs in place to collect data on people who walk and bike?  
  - **Score**: C

- **Formal User Group Engagement**: Does the state have an official Bicycle and/or Pedestrian Advisory Committee and does it follow best practices?  
  - **Score**: F

---

#### Policies & Programs
**Ranked 34 of 50 States**

- **Complete Streets**: Does the state have a complete streets policy and processes to support its implementation?  
  - **Score**: D-

- **Design and Access Policies**: Does the state have policies in place to ensure good design and access for people who bike and walk?  
  - **Score**: B-

- **State of Practice Development**: Does the state support trainings on bicycle and pedestrian infrastructure and complete streets implementation?  
  - **Score**: A

- **Sustainable Transportation Policies**: Does the state work incorporate multi-disciplinary considerations in the development and implementation of transportation projects?  
  - **Score**: B-

---

#### Education & Encouragement
**Ranked 49 of 50 States**

- **State DOT Education & Encouragement Support**: Does the state DOT support bicycling and walking events and education materials?  
  - **Score**: D

- **Mode Share & Advocacy**: Do people bike to work and are they organized to advocate for improvements?  
  - **Score**: C-

---

#### Legislation & Enforcement
**Ranked 47 of 50 States**

- **Laws That Regulate Driver Behavior and Methods of Enforcement**: Does the state have strong comprehensive distracted driving laws and allow photo enforcement?  
  - **Score**: C+

- **Laws That Restrict the Behavior of People Who Bike and Walk**: How does the state unnecessarily restrict the behavior of people who bike and walk?  
  - **Score**: D+

- **Laws That Create Protections for People Who Bike and Walk**: Does the state have laws that provide specific protections for people who bike and walk?  
  - **Score**: F

---
