The Bicycle Friendly States ranking is based on a comprehensive survey completed by state departments of transportation and state bicycling advocates. It asks comprehensive questions across 5 categories: Legislation and Enforcement, Policies and Programs, Infrastructure and Funding, Education and Encouragement, Evaluation and Planning.

The results listed above provide only a snapshot of the full application. They are intended to offer some ideas for further growth in bicycle friendliness. For more information, visit www.bikeleague.org/states or contact Nicole Wynands at (202)-822-1333 or nicole@bikeleague.org.

**TOP 10 SIGNS OF SUCCESS**

- People commuting by bike (more than 1%)
- Safe passing/vulnerable road user law
- Complete streets policy
- Committed state funding
- Active state advocacy group
- State bicycle plan (adopted 2004 or later)
- Share the road campaign
- Bicycle education for police
- Bicycle safety emphasis in strategic highway safety plan
- Top 10 state for congestion mitigation and air quality spending

**FEEDBACK**

- Adopt a safe passing law with a minimum distance of 3 feet to address bicyclist safety.
- Adopt a vulnerable road user law that increases penalties for a motorist that injures or kills a bicyclist or pedestrian.
- Adopt a statewide Complete Streets policy.
- Adopt performance measures, such as mode shift or a low percentage of exempted projects, to better track and support Complete Streets/Bike Accommodation Policy compliance.
- The state could spend more federal funding on bicyclists and pedestrians. Adopt project prioritization criteria for federal funds that incentivize bicycle projects and accommodations.
- Dedicate state funding for bicycle projects and programs, especially those focused on safety and eliminating gaps and increasing access for bicycle networks.
- Adopt a statewide bicycle plan that addresses each of the five “Es”, has clear implementation actions, and performance measures to gauge success.
- Adopt performance measures to decrease bicycle fatalities.
- Adopt a mode share goal for biking to encourage the integration of bicycle transportation needs into all transportation and land use policy and project decisions.
