TOP 10 SIGNS OF SUCCESS

- 1% OR MORE OF PEOPLE COMMUTING BY BIKE
- SAFE PASSING LAW (3 FEET OR GREATER)
- COMPLETE STREETS POLICY
- DEDICATED STATE FUNDING
- ACTIVE STATE ADVOCACY GROUP
- STATE BICYCLE PLAN (ADOPTED 2005 OR LATER)
- SHARE THE ROAD CAMPAIGN
- VULNERABLE ROAD USER LAW
- BICYCLE SAFETY EMPHASIS IN STRATEGIC HIGHWAY SAFETY PLAN
- 2% OR MORE FEDERAL FUNDS SPENT ON BIKE/PED

FEEDBACK

- Continue to develop and implement RIDOT’s Traffic Engineering Section’s new approach to identifying and addressing safety and congestion problem locations called Rhode Island’s Strategically Targeted Affordable Roadway Solutions (RI*STARS). Bicycling infrastructure and Complete Streets approaches often provide low-cost solutions to safety and congestion problems and should be routinely incorporated in the RI*STARS program.

- Adopt a statewide bicycle plan that addresses each of the five “Es”, has clear implementation actions, and performance measures to gauge success.

- Continue recent efforts in coordination with the RI Division of Motor Vehicles to add questions to the state driver’s manual specific to bicycle and pedestrian travel modes. As new questions are added ensure that resources and training is provided so that drivers are properly trained and tested on interactions with bicyclists and pedestrians.

- Dedicate state funding for bicycle projects and programs, especially those focused on safety and eliminating gaps and increasing access for bicycle networks.

- Adopt a vulnerable road user law that increases penalties for a motorist that injures or kills a bicyclist or pedestrian. Model language is available here: http://bikeleague.org/content/model-legislation.

- Hold a state bicycle summit with opportunities for professional development, contact with elected officials, and networking.

- Adopt and publicly report on performance measures, such as mode shift or a low percentage of exempted projects, to better track and support Complete Streets Policy compliance.
