2018 Progress Report

Nebraska has some mixed data over the last decade, but unfortunately its more recent data paints a troubling picture for the state.

Over the last decade, each of Nebraska’s federal data indicators has trended in the wrong direction, but have often been near or better than the Midwestern regional average.

While it is dangerous to read too much into one year, 2017 shows a significant drop in the rate of bicycling to work (the lowest rate in the last decade), a significant drop in federal funding for bicycling and walking (the lowest rate in the last decade), and a significant increase in the rate of bicyclist traffic fatalities (the highest rate in the last decade).

The Bicycle Friendly States ranking is based on a comprehensive survey completed by state departments of transportation and state bicycling advocates. For more information, visit bikeleague.org/states or contact Ken McLeod at (202)-822-1333 or ken@bikeleague.org.

#### Featured Agency - Nebraska Department of Transportation

“NDOT’s has hired a new Highway Planning Manager, Craig Wacker. He [joined] NDOT on August 6, 2018 and his duties include being NDOT’s Bicycle – Pedestrian Coordinator.”

Every member organization of the League of American Bicyclists gets free access to a powerful advocacy software package. In 2017, the League facilitated over a dozen actions that engaged thousands of people. In New Jersey, these efforts led to a law that requires that drivers are educated about bicyclist and pedestrian safety as part of their driver’s license training.
