Change in Percent of Bike Trips by Racial/Ethnic Identification

National Household Travel Survey data from 2009 and 2017 shows several changes in the racial and ethnic makeup of people taking bicycle trips. While overall trips decreased slightly during this period, people who identified as Hispanic, multiracial, and Asian increased their share of bike trips.

Polling suggests that Black people are some of the strongest supporters of bicycling improvements.

"My community would be a better place to live if bicycling were safer and more comfortable."

General improvement in support: From 2/3rds in 2012 to 78% agree in 2020.
Agreed - "Would Make Me Ride My Bike More Often"

- More bike lanes and trails
- Secure bike parking
- People to Bike With
- Learning more about safe riding skills
- Less concern over interactions with police

BFA ENFORCEMENT FAQS

Q: Enforcement is no longer one of the 5 ‘E’s, will my community lose credit because police implement bicycle safety programming?

Q: Enforcement is no longer one of the 5 ‘E’s, should I stop working with police as an LCI or advocate?

Q: Enforcement is no longer one of the 5 ‘E’s, does that mean the League of American Bicyclists does not support policing?

Q: Enforcement is no longer one of the 5 ‘E’s, does that mean the League of American Bicyclists no longer promotes each bicyclist’s right to the road?

Q: Enforcement is no longer one of the 5 ‘E’s, does that mean the League of American Bicyclists does not believe in traffic safety?

Q: Enforcement is no longer one of the 5 ‘E’s, how can my organization support shifting local conversations towards engineering solutions to traffic safety issues?

Q: Enforcement is no longer one of the 5 ‘E’s, how can we partner with police to increase low enforcement’s understanding of bicycling?

Q: Enforcement is no longer one of the 5 ‘E’s, how can I share this with our city engineering staff and/or Bike Advisory Committee?

Q: Enforcement is no longer one of the 5 ‘E’s, what about unarmed or non-police law enforcement?

AFTER:
EVALUATION & PLANNING >>
Evaluating & Improving Safety Outcomes

F16. Does your community collect and track bicyclist crash data?
- Yes*
- No

*F16a. On average over the past five calendar years, how many bicyclists have been in a crash involving a motor vehicle annually? (# only)
GOAL: INCREASE TRANSPARENCY AND ACCOUNTABILITY IN POLICING AND ENFORCEMENT PRACTICES

BEFORE:
ENFORCEMENT >> Bicycle-Related Enforcement Practices and Programs

E8. How does your community use traffic citation data?
*Check all that apply.*
- Raw data is published and made available to the public on a regular basis
- Analysis and reports are published and made available to the public on a regular basis
- Data is only available to the public by FOIA request
- Analysis and reports are developed but not shared/ are only used internally
- Data/reports are shared with transportation agencies to improve infrastructure
- Data is not collected
- Unknown

AFTER:
EVALUATION & PLANNING >> Evaluating & Improving Safety Outcomes

F23. How does your community ensure transparency and accountability regarding traffic law enforcement? *Check all that apply.*
- Officials are required to report all traffic enforcement stops made of motor vehicle drivers
- Officials are required to report all traffic enforcement stops made of bicyclists and pedestrians, including any stops made on streets, sidewalks, trails, transit, etc.
- Demographic information is collected as part of all traffic stop data that is reported
- Real-time reporting of traffic enforcement data is made available to the public
- Raw data is published and made available to the public on a regular basis
- Data summaries, analysis, or reports are published and made available to the public on a regular basis
- Demographic data including race or ethnicity are included in publicly-available datasets, summaries, and/or reports*
- Data is only available to the public by FOIA request
- Analysis and reports are developed but not shared/ are only used internally
- N/A - Data is not collected
- Other**
- Unknown

*F23a. Please share links or upload files showing any publicly-available traffic enforcement data or reports that include demographic information.

**F23b. If other, please describe the policies or practices in place to increase transparency and accountability in traffic enforcement.
F23. How does your community ensure transparency and accountability regarding traffic law enforcement?

Check all that apply.

- Officials are required to report all traffic enforcement stops made of motor vehicle drivers
- Officials are required to report all traffic enforcement stops made of bicyclists and pedestrians, including any stops made on streets, sidewalks, trails, transit, etc.
- Demographic information is collected as part of all traffic stop data that is reported
- Demographic information is collected for all traffic-related citations and arrests
- Real-time reporting of traffic enforcement data is made available to the public
- Raw data is published and made available to the public on a regular basis

**F23b. If other, please describe the policies or practices in place to increase transparency and accountability in traffic enforcement.
F24. What, if any, policies or practices does your community have in place to measure and eliminate racial bias in traffic law enforcement, including in-person and automated enforcement practices?

(Open-ended)
INTEGRATING EQUITY IN BFC: NEXT STEPS

- BFC Application Currently Offline through May 2022 for updates
- Research partnerships and outreach to existing & aspiring BFCs & bike advocates in Spring 2022
  - Get Involved: bit.ly/BFC_equity_signup or email comments to bfa@bikeleague.org
- Will be previewing BFC application updates at 2022 National Bike Summit
INTEGRATING EQUITY IN BFC: NEXT STEPS

- Representative Public Surveys
- Bike Network Equity Index / Equity overlay analysis of bike infrastructure
- Racial Equity Action Plans
- EDI Staff & Committees involvement in biking
- Support for BIPOC-led education and encouragement
- Baseline and tracking of equity data
- Equity goals
Focus group was clear about what investing in bicycle infrastructure should mean - it should mean building safe, separated, high-quality infrastructure that also recognizes the multimodal nature of people who will bike, walk, take transit, and drive in their communities.
Identified need for research showing high-quality bicycle infrastructure in a Black community and its effects on that community over 5-10 years, to account both for potential displacement and community adaptation to the infrastructure. Research on historical investments in bicycle infrastructure in white vs. Black or brown neighborhoods were also identified as an area of interest.
The League’s framing could be interpreted to be saying that concern for police interaction is the problem rather than police violence being the problem. It is important to clarify that the League is concerned with police violence, and that police violence is associated with armed traffic law enforcement.
Traffic Enforcement is the most common form of police-initiated contact and disproportionately affects Black people. A 2018 report by the Department of Justice found that “being a driver in a traffic stop was the most common form of police-initiated contact” and that “Blacks were more likely to be pulled over in traffic stops than whites and [Latinos].”

Fatal Police Shootings Of Unarmed Black People Reveal Troubling Patterns

January 25, 2021 · 5:00 AM ET
Heard on Morning Edition

More than a quarter of the killings occurred during traffic stops
There was strong support for the idea that more ticketing should not positively affect Bicycle Friendly Community (BFC) award decisions, and that racial disparities in ticketing should negatively affect BFC award decisions.

Most focus group participants favored engaging with law enforcement and traffic safety groups as part of advocating for changes in police practices and safer street designs.
