SAFETY MEASURES CRASHES <i>Crashes per 10k bicycle commuters</i>	549	41
SAFETY MEASURES FATALITIES <i>Fatalities per 10k bicycle commuters</i>	7.3	0

KEY STEPS TO SILVER

» Continue to increase the amount of high quality bicycle parking throughout the community. Ensure that people arriving by bicycle have a secure and legal place to lock their bikes at popular destinations through the use of bike corrals, bike valets, and incentives or requirements for bike parking in buildings.

» Develop a design manual that meets current NACTO standards or adopt the NACTO Urban Bikeway Design Guide. This will make it easier for city staff to propose and implement bicycle facility designs that have been shown to improve conditions for people who bike in other cities throughout the United States.

» Bicycle-safety education should be a routine part of education, for students of all ages, and schools and the surrounding neighborhoods should be particularly safe and

convenient for biking and walking. Work with local bicycle groups and interested parents to expand and improve your in-school bicycle education program. Your application indicated that middle and high schools could benefit from more in-school bicycle education opportunities.

» Improve Bike Month activities by creating a Bike to School Day event. Bike to School Day events can include competitions related to bicycle use, outreach to parents, and coordination between the schools and the city to create safer routes to schools.

» Implement road diets in appropriate locations to make streets more efficient and safer for all road users. Use the newly created space for bicycle and pedestrian facilities.
