01. Footnote for uncertain tax position under FIN 48 (Part X)

The accounting standard on accounting for uncertainty in income taxes addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under that guidance, the League may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities based on the technical merits of the position. Examples of tax positions include the tax-exempt status of the League and various positions related to the potential sources of unrelated business taxable income (UBIT).

The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a
