advocacy event of
the year.***

Join us for the National Bike Summit!

The National Bike Summit is so much more than a conference. The Summit is three days of movement building and political action resulting in a stronger, more unified voice for safer streets and life-changing biking and walking infrastructure.

Our 500 (anticipated) attendees enjoy engaging workshops and plenaries, insightful keynote speakers from across the movement, and hands-on mobile workshops culminating in our famed Lobby Day, connecting advocates with their Members of Congress and setting in motion real and lasting change.

All attending sponsors will have the opportunity to meet face-to-face with our full network of advocates, educators, business and community leaders, elected officials and more. Sponsored brands are recognized as changemakers for bicycling.
