Feedback

- Adopt a vulnerable road user law with a minimum safe passing distance to address bicyclist safety.
- Adopt a statewide Complete Streets policy. The National Complete Streets Coalition has a model state policy and other resources to ensure adoption and implementation.
- Review the state's policies and application processes to address the low obligation rates of the following dedicated bicycle and pedestrian federal funding programs like Safe Routes to School.
- Conduct a share the road campaign creatively addressing the issues specific to your state.
- Dedicate additional resources towards fully implementing the state's existing bicycle plan. The plan was adopted in 2006 but implementing all of the plan has been slow.
- The League completed the state's BFS application. We strive to provide accurate information, but not every question can be answered without the state's participation.

One Bicycle Friendly Success

Indiana's bicycle education for law enforcement and share the road campaign are excellent first steps toward increasing awareness and safety of bicyclists.

Top Tip for Improvement

Adopt a Complete Streets policy along with training and implementation guidance for engineers and planners.
